

BEP NEWSLETTER

6th edition

Barnfield Education—educating the future today

June, 2017

Best Wishes To BEP Students!

It's my pleasure to welcome you to the sixth edition of BEP Newsletter. This edition is special in many ways. Firstly, it conveys a message of good will to ALL BEP students sitting public exams in 2017; from SATS, GCSE to A Level. Secondly, it carries an exciting news about BEP collaboration and partnership with the Museum Of London and finally, it introduces BEP first ever Summer School which will commence from 1st August to 31st August 2017.

Needless to say that EXAM TIME is one of the most challenging moments when students start getting anxious and spend sleepless nights worrying about the coming exams. Exams may be anxiety provoking for some people. Students may worry about an exam for days before it is to take place and/or during the exam, when tackling the examination they may experience negative thoughts and unpleasant physical symptoms which prevent them from performing to the best of their ability. My advise is, **KEEP CALM IT'S JUST EXAM FEVER!** Students, Just Relax ! Need not Worry.... It is wise to remember that exams are not here as punishment. Instead, they are a good way of testing to see how much information you have learnt.

Don't get over anxious: It never helps. Think of all the exams you have faced so far and how you have overcome your fears. Visualise the worst that can happen and then think positive.

Talk over your anxieties to your parents, friends etc and get it out of your chest periodically. At the same time, talk about the subjects you are good in and the chapters you are well prepared in. Gain confidence in subjects you know best: by completing the revision and writing notes, especially to a family member or answering mock tests. Make brief points to refer just before the exams. Fix time and place: Make sure that your study has no disturbance.

Move away from that place when you need to take breaks.
Take them frequently by structuring your time schedule.
Every time you feel fresh, study the difficult or boring subjects first for a few minutes and then move on to easy ones.

BEP Director.

THE CITY IS OURS RESEARCH PROJECT FOR 14 -18 YEARS OLD.

BEP Education is constantly exploring opportunities for partnership and collaborative working with external organisations. Few months ago we brought in Birkbeck University of London as partners with BEP. They delivered a presentation on career paths to our young people during Barnfield Youth and Education Day. This month, we've again succeeded in bringing in Museum Of London as our partners. This has resulted in immediate commissioning of BEP education by the Museum Of London to take part in a Nation-wide research project - The City Is Ours. This research project will provide our young people a rare opportunity to take part in a creative research that will help them explore the city they live in, the challenges faced by young people and most importantly, to come up with a proposal on the type of city they would like to have in the future - This is an exciting news!

At the completion of this 6 months research project participants will not only receive joint certificate from BEP Education and Museum Of London but, will gain invaluable skills that will go into their CV, UCAS applications and key employability skills such as analytical skills, communication skills and team-working skills. If your child is between the age of 14 -18 Yrs old and you are happy for him/her to take part in this research, contact BEP Education.

We now run 2 sessions!

BEP WEBSITE

The new website has facilities for teachers and student to communicate homework, peer to peer interaction and lots more, please login and check out Microsoft Office 365

After months of working extremely to design a website that sets the standard in the industry, we are proud to announce that we have branded and launched our new website!

After some careful research and taking into consideration the feedback that we had received from parents, we set about planning to build our new website. The site has been designed with the visitor flow in mind, ensuring that it's easy to navigate around for teachers, parents and students alike.

Deon Parent *"When I was asked to build the website my vision was to create a website that is simple yet iconic and unforgettable. I really feel that we have achieved this with this stunning, easy to use, functional website"*.

The site will also be getting even more incredible over the coming months so watch this space!

Important information to parents

Attendance

Please be reminded that once your child register with us, they are expected to attend Saturday school every weekend. You will still be charged if your child is absent, however we may discretionary waver the contribution if your child is off due to illness, this will be assess on a case by case basis. Unauthorised absence is not permitted in any form; if your child is not able to attend for any reason including sickness please, ring the school office and report your son/ daughter's absence. Regarding punctuality, BEP takes punctuality very seriously, therefore; we are appealing to all parents to remind their children to get to class on time, classes starts 10:00am prompt!

Recently, we've noticed that some students attend Saturday school without their notebooks and pencil case; this is not acceptable! Your child must come to school with correct equipment. Primary students must bring the recommended textbooks plus notebooks and a complete pencil case—parents should endeavour to provide all necessary resources to their children.

Reporting absence

To report your child's absence by calling of emailing the contacts above, please make sure you leave a message by 9:30am, we require (i) Child's name (ii) Child's year group (iii) Reason for absence

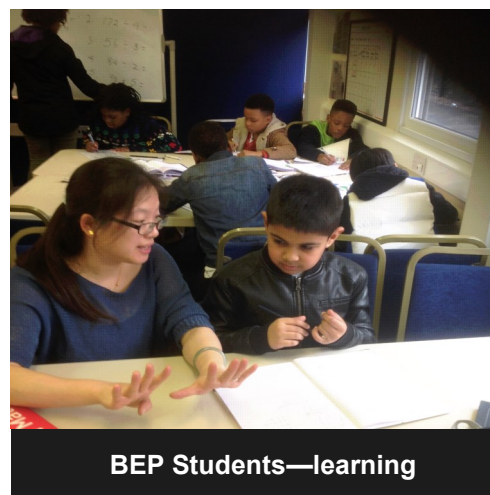

Contact details

Please ensure we have your correct contact details in case we need to contact you during an emergency. These should include:

- The name of parent/carer
- The address where the child is staying
- Full contact details for the adult responsible for your child.

Keeping us informed of child progress

Please ensure that we have your child latest school report on file so we can give your child full support to help them improve in their school work and grades.

Bank Details

Account Name: Barnfield Education Ltd
Bank Name: Barclays Bank
Account number: 20430242
Sort code: 202963

Payment reference:
 please quote your child's name.

Barnfield Residents Meeting - last Saturday of every month

Barnfield Residents meets on the last Saturday of the month to discuss how the important issues in the community and make decisions on how Big Local Funds granted should be spent.

If you live on the Barnfield Estate please record these dates in your diary and come have your say on how the money is spent.

Primary School Section

In order to provide effective and efficient teaching to your child, we strongly recommend Scholastic National Curriculum practice book for Math & English.

BEP Summer School

This is a great opportunity for your child to join us in our first ever Summer School and take advantage of our one week learning with various activities at the Museum Of London. And also to take part in music project, learn international language, learn computer coding and learn maths in a new way.

Remember you have to register your child even if your child attends our Saturday school currently. To register call - 07971773042 or 07410839609.

Our Partners

BEP Parents Association

The concept of P.A.S.S. (Parents Accountable for students' success)

This initiative will enable parents to get involve in their children's learning. By making sure that all parents provide all resources and equipment needed by their children for learning. Members of PASS visit the school on Saturday during lesson to see how learning takes place. They are responsible for spreading the news and supporting other parents who are not supportive of their children's education.

The use of inter-generational approach

This initiative help parents to learn some basic computer skills from our most able students. Students who are bright with excellent IT and computer skills are selected to teach parents. Students are not allocated to teach their biological parents but other parents to ensure inter-transfer of knowledge from one generation to another. The parents will also have the opportunity of teaching the students some key skills. For example, vocational skills like cooking and baking. We focus on these two skills for now.

If your child is attending our Saturday school, we strongly encourage you to join BEP parents association.

For more information on joining please contact us by phone, by email or come to the school office on Saturday and talk to the admin officer.
